

DIN80 – Full Specification

Supply voltage:	230V ac 50Hz 5mA max. or 24V ac/dc 50mA max.
Outputs x 8:	2A @ 220V DC or 250V ac NO and NC contacts available.
Fusing:	5x20mm 1A a/s
Communications driver protection:	3kV ESD protected Short circuit proof Thermal shutdown
Enclosure dimensions:	254x180x60mm
Material:	Polystyrene
Flammability rating:	Self extinguishing to UL94
Colour:	Light grey with smoked transparent lid
IP rating:	55
Environment:	0-70° C ambient 80% RH non-condensing
Cable entry:	11 x cable glands fitted

Operation

Relays are programmed to change state in response to various commands/status messages on the damper control system.
